

An Edmonton Academy Trust for Edmonton children

Many schools across England and in Enfield are now academies and the Government continues to want all schools to become academies

Your Governors and Senior Leaders believe that this is now the right time for your children and right for the school

- * Working with local Edmonton schools to provide excellent quality education for Edmonton children and lots of opportunities to enrich their learning
- * Keeping our identity, including our name, uniform, ethos and values
- * Having the best staff who will keep the same terms and conditions and providing them with outstanding training and development opportunities
- * Carrying on the excellent work we do with our SEND children and providing the inclusion and support which they need
- * Taking control of our own future by forming our own Trust so that we can work with schools we choose to work with that put Children First, rather than possibly being forced at a later date to join with other schools not in Edmonton
- * To continue to work with all the parents and carers to ensure we are schools which serve our communities
- * Each school will continue to have the same Governing Body including two elected Parent Governors, with a Trustee Board to oversee all five schools. All of these posts are unpaid
- * Making sure everything we do is value for money with the possibility of accessing extra funding directly from the Government
